Bob Steele, caretaker at Lone Star Lake, appeared before the Board to further discuss the installation in the camping area of facilities at the Lake, which the Board discussed with Mr. Steele during their visit to the Lake on Monday. Mr. Steele presented to the Board a sketch design in the manner in which he would intend to proceed with the installation of the camping facilities. The Board agreed that this was in general what we had in mind, and instructed Mr. Steele to proceed with the installation, and granted permission to Mr. Steele to employ Mr. Leonard Williams at a rate of \$3.00 per hour to assist him in this work. The installation will consist of providing facilities which will include water and electrical outlets for 20 campers or trailers, with a restroom and shower facility.

Janice Beem, Register of Deeds, appeared before the Board accompanied by Mr. David Taylor, representing Business Systems Markets Division of Eastman Kodak. Mrs. Beem had discussed with the Board on previous occasions the dire need of replacing the photo equipment presently in use in the Register of Deeds office. Mrs. Beem further explained that she had investigated systems being used in other counties, and after doing so, felt that the Recordak System seemed to best meet her requirements. Mr. Taylor discussed all the aspects of the Recordak System and the application as pertained to our County. Following discussion, Mr. Taylor was asked to present to the Board a proposal for complete installation of required equipment in the Register of Deeds office on a lease-purchase basis.

lation for
2nd baseball
diamond at
Fairgrounds*

Mr. Lyle Pierson, representing the Douglas County Amateur Baseball Assn., appeared before the Board to discuss possible installations that they possibly would like to make relative to the establishment of a second baseball diamond at the Fairgrounds. The Board has previously agreed to prepare a second diamond, but have unanimously indicated that we would not be further involved in any cost of lighting of a second diamond. The Board informed Mr. Pierson that the Baseball Assn. should understand that any permitted lighting installations which they should decide to make in connection with a second diamond should be considered to become the property of Douglas County. With this understanding the Board agreed to allow D.C.A.B.A. to make any such installations with it being further understood that the D.C.A.B.A. would have scheduling priorities, but that others would have use of the diamond if this use did not interfere with the established schedule of D.C.A.B.A.
