*Minimal load
posting of bridges
to be closed*

should proceed as rapidly as possible toward construction of these three bridges so that any closing of these bridges would be of a minimal duration. The Board further indicated to the Engineers their feeling that we should give every consideration to developing a very minimal load posting of the bridges recommended for closing in order that residents in the area of the bridges might retain at least minimum use of the bridges prior to reconstruction.

No further business, the Board adjourned to meet on Monday, February 14, 1972.

*Joint meeting
with Douglas Co. &
Franklin Co. at
site of bridge on
Franklin Co. line*

The Board previous to convening to the session of the morning, held a joint meeting with the Douglas County Engineering staff and Franklin County Board of Commissioners and Franklin County Engineer at the site of the bridge on Franklin County line on County Route No. 1023. This bridge being one of the bridges recommended to be closed as a result of the bridge inspections on F.A.S. routes. The Boards seem to be in general agreement that the recommendations of the consulting firm carrying out the inspections should be adhered to and the Douglas County Engineering staff was requested to prepare a resolution carrying out this action. The Franklin County Board will take similar action.
