Valleyview: app.
Raise rates for
private pay patients
as of 2/79

The Board then discussed with Ms. Smith the rates which are currently being charged for private-pay patients at Valleyview. Through a State Audit it has been shown that our rates as currently established are well below our actual per day costs. In keeping with our original intention to maintain Valleyview as a self-funding agency, it becomes necessary to consider an increase in the private-pay patients rates. With this background in mind, Ms. Smith recommends to the Board an increase in private-pay patients at Valleyview as follows:

(1) For rooms with 4 beds, \$550 per patient

(2) For rooms with 2 beds, \$590 per patient

(3) For single rooms, \$630 per patient

Ms. Smith points out that at these rates, we will not quite be meeting our per-day costs with direct charges. She also points out that SRS will pay no more than that average which is established for private-pay patients. So, in an effort to maintain Valleyview competitively in the market place and to continue the concept of its self-funding, it was moved by Mrs. Bradley that we accept the recommendation of Ms. Smith and raise the rates as recommended, to be effective the 1st of February, 1979. Motion seconded by Mr. Whitenight and carried.
