Set 1981 cost
for customers

Mr. Kemberling then presented figures which indicate the administrative cost per gallon of 2,4-D for the year 1981 is recommended to be set at the rate of \$0.62 per gallon. By applying that recommended administrative cost figure to an average cost per gallon of materials on order and on hand of \$7.76 per gallon, a figure of \$8.38 per gallon is applied for an overall cost per gallon on the average. In accordance with the terms of the statute of the State of Kansas, Mr. Kemberling recommends that we set the rate of \$6.00 which is 71.6% of the total cost of product and administration. After review of this recommendation it was moved by Mr. Cragan that we accept the \$0.62 recommended for applied administrative charges and that we set the rate of \$6.00 per gallon as our net per gallon charge to the customers of Douglas County for the year 1981 effective March 1, 1981, seconded by Mr. Neis, and carried.
