

Board
 read in open meeting of the Board and the Board being satisfied that such proposed road is necessary it is ordered that W. A. Nimsom, Uriah Swanson and Wm. Cole be and are hereby appointed as jurors and A. A. Woodhull as surveyor to view said road and locate the same according to law on the 21st day of July A.D. 1860

The Report of the Grand Jury, May Term, was presented and read as follows

We the undersigned Grand Jurors now in session in and for Douglas County Territory of Kansas would most respectfully report that upon our examination of the jail facilities find they are entirely insecure and unfit to be used as such hence in our opinion we can with the strictest propriety and justice declare the present jail a nuisance

But upon further inquiry and examination find that the said County has through their County Commissioners purchased the requisite material for the construction of an iron jail which said material is now in this city ready to be put up and find it well calculated for all the purposes designed as also having in connection with it water pumps pipes, iron bedsteads &c &c

The great necessity for such a building for the safe keeping of prisoners being so apparent we would respectfully but most earnestly urge upon the commissioners of this county the great necessity of an immediate erection and completion of said iron jail

We further would recommend for the consideration of the County Commissioners that they personally examine and enquire into the condition of all the bridges within the boundaries of this county and wherever in their opinion there is any necessity for attention or repairs for the more perfect safety in crossing and recrossing that they take the necessary steps for their immediate reconstruction or repairs

All of which is respectfully submitted
 Lawrence, Douglas County K.T.

G. A. Reynolds,
 Foreman
 Grand Jury

May 22. 1860
