

The committee appointed to examine the superstructures of the bridge over Mud Creek built by R. W. Allen made the following report

To the Honorable Board of Commissioners of Douglas County Gentlemen

The undersigned committee appointed to examine or inspect the bridge across Mud Creek contracted to Robert W. Allen of Kamaheka would report as follows

First the bridge is not built according to plans and specifications 2^d The bridge in its present condition is unsafe for heavy teams to cross, the principal points in the bridge failing to comply with plans and specifications are in height of straining beam from lower chord and the imperfect manner of splicing the chords and the width of bridge it being nine inches less than plans and the insufficiency of spikes in the planing

F. Fuller } Committee
T. H. Sescher }

On motion the report was accepted and ordered to be placed on file
