

In the matter of Report of Viewers on
the Petition on Geo. D. for Vacation
and Location of a certain road

The Viewers appointed October 11th 1876 having completed their report on the petition of Geo. D. for the vacation and relocation of a certain road now come with their amended report and represent that Pursuant to Commissioners Notice that they met at the place of beginning and took to their assistance J. B. Smith and August Ave as Chairmen and Geo. D. as marker proceeded to view the route of the road sought to be vacated which was surveyed under our direction by Tho. C. Darling Co. Surveyor. whose field notes and plats accompany this report; and after careful deliberation Respectfully report that the route thereof is naturally and utterly impracticable for a public highway and that it never can be made of any public utility as such by any ordinary outlay of work usually done in our road districts;

Also we respectfully report that the location of the road prayed for ought to be located for the following reasons: That if so located it would promote the public convenience and that it is practicable as a route for a public highway. We further determine that by the establishment of said road Geo. M. Duncan will be damaged

George Bahmaier Said reports — 5.00
Said reports being published read and considered by the Board and after taking the sworn testimony of George Bahmaier Geo. M. Duncan J. C. Vincent Francis Wallcut others and considering the sundry claims for damages determined and ordered that the prayers of the petitioner be rejected and the road not vacated and established as prayed for.
