East of the City limits }

A resolution of the City Council of the City of Lawrence
asking that certain pools of stagnant water East of the City limits be
filled up as the same may become detrimental to the health
of the citizens was referred to Edw. Briggs, Master of the Marston Sup.
for such action as he may deem best for the health of that locality.

The Board had under consideration the Waverley Road. Evidence
taken and finally laid over for future consideration.

The Road Road was thus called for, but the principal petitioner
not appearing, it was laid over until the January session.

Board adjourned to meet Octo 10, 1854.
