Upon Motion Made, seconded & passed, the board approved the map, profile, plans & specifications covering the proposed widening of Section A, B, C, E, F & G. Fort & Fort Highway. The specifications just No. 7, Road District No. 5, we directed that the improvements be made in accordance with the as indicated by Road No. 5.

Saturday April 26, 1919.

The board met in regular session, all members present, and Commissioner and Chairman W. R. Green, presiding.

A Committee of Eudora residents met with the board and talked over matters with reference to the repair of the Eudora bridge. A decision to immediately repair and place in passable condition this structure was agreed to. Commissioner Andrews moved, Commissioner Hoover seconding the motion, that the County engineer immediately make and file sufficient plans, specifications and estimates of cost, for the repair of the Eudora bridge made necessary by injury to said bridge from the March, 1919, flood, and also such other repairs as are necessary to put the north end of said bridge in safe
