

Wednesday January 13-1926

Brown Road
The Board met in adjourned regular session, going from the Court House to the location of the road petitioned for by J. W. Brown, and others (see page 218). This road was granted by the Board and County Engineer E. E. Turlock instructed to figure out damages. From this point the Board continued on to the location of the road that F. M. Hartman and others had asked to have vacated. (see page 219). The Board decided not to vacate this road however the told the parties interested they had no objections to the road being forced up until such time as it might be again needed for road purposes. The Board returned to the Court House but too late to finish all the business before them for the January session. They returned Saturday and transacted the business on the calendar and close the January session.

The following reports from the township trustees were received, audited and approved.

Township Reports
J. T. Anderson, Clinton: Gus Gabriel, Eudora:
Chas. Hood, Grant: Geo. T. Richards, Kanwaka
