WE, THE BOARD OF COUNTY COMMISSIONERS OF DOUGLAS COUNTY, KANSAS,

Acting as Viewers of a road petitioned for by Effie Kampschroeder and others of Clinton Township, met, as heretofore determined and ordered by the Board, at the beginning point of the road as petitioned for to be established on the 6th day of May, 1936 and proceeded to view the route of said road as prayed for in the petition, or as nearly so as we consider a good road can be made at a reasonable expense, taking into consideration the utility, convenience, inconvenience, and expense which will result to individuals as well as to the public if said road or any part thereof be established for public use.

Further action and hearing on the petition was postponed to the 9th day of May, 1936 at which date interested parties were notified to appear.

The Board of County Commissioners in regular session this 9th day of May, 1936, held a conference with the interested parties, and all except C. S. Barker agreed to the Commissioners proposition: Barker being one of only two Beneficiaries in this road, refused to contribute anything toward the road. Consequently, the Commissioners instructed the County Engineer to prepare claims covering their proposal, and set Wednesday May 13, 1936 for further action.

The route of said road was surveyed under our direction by E. E. Trueblood, County Surveyor assisted by C. E. Redmond and A. L. Cox, chainmen and George Moorman, marker. The report of survey, plat and field notes are hereto attached and are made part of this report and record of final action.

Witness our hands this 13th day of May, 1936.

Board of Commissioners of Douglas
County, Kansas.
