The Board of County Commissioners convened to discuss matters pertaining to County business.

The County Clerk suggested that since the Lone Star Lake Park is under the jurisdiction of the County Engineer, it might be better if the County Engineer had charge of the yearly fishing permits for the lake as he now has the daily permits, and then the finances of the lake will all be in one set of hands, and would eliminate a lot of extra work and bookkeeping for both offices. The board suggested Mr. Gerhart talk the matter over with the County Engineer and if the engineer is willing to handle the permits, the board will grant its approval.

No further business the board adjourned.
