Recordak
microfilm
equipment -
rental or pur-
chase discussed

Mr. Dave Taylor, representing Eastman Kodak, visited with the Board regarding the Board's desires as to rental or purchase of the Recordak microfilm equipment being installed in the Register of Deeds office. After due consideration the Board indicated to Mr. Taylor the thought on the part of this Board that general fund balances would allow the purchase of this equipment with this year's funds. The Board consequently asked Mr. Taylor to change the method of acquiring the equipment from a rental basis to a cash purchase. It is the understanding of this Board that this decision will be finalized when general fund balances are determined. Mr. Taylor indicated that the film printer part of the installation would probably not arrive until after the first of the year, but that all other equipment had been installed and could be billed at once.
