items by Co.  
responsible  
for:*

Engr. Rice appeared before the Board to discuss the items of the Mad Creek Levee project which Douglas County would be responsible for. After due discussion, it was agreed that the County would be responsible for:

- Compaction of the additional fill required for the relocated roads, which fill would be over and above that required for the levee originally. These relocated roads would be between stations 28 and 70; 125 and 139; 212 and 218.
- Clearing and grubbing beneath roadway fills at the above locations.
- Ramp and drainage pipe at entrance to Highway 24-40.
- Twenty foot extensions of RCP drainage structures through the levee and roadway at stations 65+00, 131+50, and 216+75.
- The erosion control structure in the West ditch of the North approach to Bridge MC-2.
- Miscellaneous shallow drainage ditch excavation in conjunction with the relocated roads between Bridges MC-1 and MC-2.

It is our understanding that the fill involved in this work will be excess material from required channel excavation. It is agreed that a communication to City Manager, Buford Watson, would set out these responsibilities.

No further business, the Board adjourned to meet on Wednesday, December 29, 1971.
