Purchase:

card file
(2) Posting

The Board considered the need for equipment which was brought to the attention of the Board during the discussion at the Board meeting on January 24 with Mr. Ater, Mr. Tate, and Treasurer Norman. It was brought to the Board's attention that the implementation of the real estate tax list billing being made by computer would require the replacement of the obsolete validating machines in the Treasurer's office and would also require three 20-drawer card files. The Board received quotations on validating machines and card files requested by the Treasurer's office. Following due consideration it was moved by Mr. Stoneback that we accept the proposal of the Burroughs Corporation to furnish two, Style F6460, window posting units at a net governmental cost of \$7,259.46 and that we accept the proposal of Wright Line, a division of Barry Wright Corporation, to furnish three, 20-drawer, card files as specified at a total delivered governmental cost of \$1,238.04 and that these items be paid for from the accumulated interest account of invested revenue sharing funds. Motion was seconded by Mr. Heck and carried unanimously.
