add. money for
aerial photomosaics

The Board reviewed contents of a letter from Mr. Robert L. Walters, Manager of Research Facilities, University of Kansas Center for Research, Inc. As part of that contractual process it was anticipated that aerial mosaics of the City of Lawrence with extended coverage to the west would be completed. Mr. Walters points out in his letter that there has been some additional cost incurred by his organization in the amount of \$500 for additional labor and materials required to expand the size of the mosaic of the City of Lawrence and to mount it on a proper backing. The letter requests the commission to consider covering this additional cost incurred in the preparation of this City of Lawrence mosaic. After complete discussion it was moved by Mrs. Bradley that the commission provide the additional \$500 as requested to be paid from the commissioners budget, seconded by Mr. Neis, and carried unanimously.
