This change order relates to Sub Section 1010.01 Portland Cement within that contract, and reads as follows:

Article (a) General Requirements - Delete the second sentence "Type II Portland Cement shall be furnished except when another type is specifically called for on the plans, in specifications or in proposal," and Add - "Type II Portland Cement shall preferably be furnished but in the event it is not available, Type I Portland Cement may be used with written permission of the Engineer on each individual pour."

The change order as proposed does not alter the basis of payment of any bid items from those shown in the Contract Documents. It is noted by the Board that this recommendation is concurred in by the contractor Midwest Construction Company, Inc.; by Finney & Turnipseed representative John W.
