FROM	STATE OF KANSAS, DOUGLAS COUNTY, 85.
John William Flory, and Vida Irene Flory, his wife	This instrument was filed for record on the18day o
TO	August A, D. 19 42, at 19745 Belock A. M
The Lawrence National Bank, Lawrence, Kansas	By Deputy.
THIS INDENTURE, Made this 17th day of August	, in the year of our Lord, one thousand nine
John William Flory and Vida Irens Blory, his w	rife
of Lawrence in the County of Douglas	and State of Kansas
	Kansas party of the second part
Twelve Hundred and no/100	DOLLARS, to them duly paid, the receipt of
which is hereby acknowledged, ha_ve_scld, and by this indenture do the following described real estate situated and being in the County of Dougl	Grant, Bargain, Sell and Mortgage to the said part Y of the second part, las and State of Kansas, to-wit:
0	
and the same state of the state of the same second state of the	6
Lot Number One Hundred Ten (110) in	Block Number Thirty-seven (37) in that
part of the City of Lawrence, Doug	las County, Kansas known as West Lawrence.
(Known as 426 Alabama Street)	
And the said party $\Theta_{25}$ of the first part do =-hereby covenant and agree that at the ad seited of a good and indefeatible estate of inheritance therein, free and clear of all incu- nd that they will warrant and defend the same against all parties making lawful claim there is in agreed between the parties beriot that the part $[\Theta_{25}$ of the first part shall at all the first parts between the parties beriot that the part $[\Theta_{25}$ of the first part shall at all the first parts between the parts between the parts beriot that the part $[\Theta_{25}$ of the first part shall at all the first parts between the parts between the parts between the parts parts of the first part shall at all the first parts between the parts between the parts between the parts of the first part shall at all the parts between the parts between the parts between the parts of the parts between the part	delivery beread
And the said paring Gg, of the first part is $\sigma$ hereby coverage and argue that it the mainted of a grant of indefaultion tests of interinuous therein, free and case of all incurses and that they will warrant and defend the same arginat all parties making lawful dains there. It is asreed separate and indefaultion the same become down and parking and that they is massed arginate and real states the bersit that any part 103 of the first part shall as it is massed arginate and real states the same become down and parking and that they in the same down and the same become down and parking and that they are also and the same become down and parking and that they have been approximated on the same become down and parking and that they as bersits portiade, then the part $=$ . of the scored part may pay skil taxes and however, the inductors while the part $=$ . of the scored part is pay skil taxes and however, $Tral 100^{-1}$ Hund (Trad H and 10 m 1000) =	defirety here $d_{1}$ they. BTO the hard over $d_{2}$ of the presides above granted, abrance
And the sold paring Gg, of the first part is on havely overage and arere that it the molecular data and indefinition tests of interiment therein, free and cines of all incur- sions of the test of the same area in the same area in the solution of the same area in the same interiment and real state where the same is been the real test and part 103 of the first part half at all a same area incursions and real states the test of the same area in the same area in the same is a same in the same interiment of the same area in the same is a same of the same area in the real state and the same is a same interiment of the same area in the same is a same of the same area in the same is a same interiment. The same is a same interiment of the same area in the same is a same interiment. The same is a same	defirety here $d_{1}$ they. BTO the harful over $d_{2}$ of the premiers that may be level means a state $d_{2}$ that $d_{2}$ the level of the indefinition of the second part to the the during the buildings upon usid real state issues a callest fits and transformed to the second part to the second part, the kas, if any made parable to the part $J_{-d}$ the second part to the second part, the kas, if any made parable to the part $J_{-d}$ the second part to the second part, the kas, if any made parable to the part $J_{-d}$ the second part to the second part, the same bound due and parable and to keep and parables in larged $d_{2}$ or different the same bound due and parable and to keep and parables in larged $d_{2}$ or different second bound in the second part of the indefinition of the second part to the second part is the same bound due and parable and to keep and parables in such a second part is the same bound and and deligned to the part $J_{-d}$ the parable second part is the second parable and parable and the parable second part is the second parable to the intervent of the deligned parable second parables in the the second parable second parable and parables and parables and parables and a second parable second parable and parables and parables in the the second parable second parables and the development of the second parable second parables and the second parable is and parables of the the second parable parable $J_{-d}$ and the second parable parables and paragement of the parable parables
And the sold paring Gg, of the first part is on havely overage and arere that it the molecular data and indefinition tests of interiment therein, free and cines of all incur- sions of the test of the same area in the same area in the solution of the same area in the same interiment and real state where the same is been the real test and part 103 of the first part half at all a same area incursions and real states the test of the same area in the same area in the same is a same in the same interiment of the same area in the same is a same of the same area in the real state and the same is a same interiment of the same area in the same is a same of the same area in the same is a same interiment. The same is a same interiment of the same area in the same is a same interiment. The same is a same	defirety here $d_{1}$ they. BTO the hard over $d_{2}$ of the presides above granted, abrance
And the said paring 65 of the first part is on hereby overand and arere that it the mainted of a cost of Indefaulties wests of Interinuous therein, free and cises of all incus- tions of the theorem is an intering of the same areainst all parties making inefail claim there. It is arread between the parties herein that the part 103 of the first part had at all on answerd registration and the term the anal powers of an all parties making inefail claim there. It is arread between the parties herein that the part 103 of the first part had at all on answerd registration of the term the anal powers of an all parties and that - 1200 on the main and by noth instances compary as hall be appelled and directal by the same	deferred preved. they are the instal over 5 of the premiers above granted, meansor
And the said part[65,cf the first part is are. havely overant and arere that it the method of a cost of indefaultion there in the same area there in the same in the other of the same in the same indefault of the same in	deferred preved. they. BTO the hard over So it he previous above granted, hence
And the said part of a first part of a having coverant and arrow that it the object of a non-analysis of the first part of a same against and indefaulties making ratios of a horizon to be the they will warrant and defend the same against all parties making lawful diam there. It is a greed between the parties bereit that the part 105 of the first part that it is an ensembly and the first part had at a same against all real states when the same beam does and parties and that that a same against all real states when the same beam does and parties and that that it is a same again the rest is a same does and parties and that that it is a same again the first here. And in the same beam does and parties and that that the same the same beam does and parties and the same beam does and parties at the same again at the same and again the same again at the same at the same at the same again at the same at the same again at the same again at the same again at the same at the same and the same again at the same again at the same at	deferrer preved. they.aro the instal over So it he premiers a hove granted, hence
And the said paring G_c d the first part do haveby coverage and agree that at the do where d a case and indefaultion makes of hardmann therein, free and case of all interval makes of hardmann the same barries the rest of the same arginst all parties making interfault at a same arginst all real states where the same is easier to be same iteration that the rest of the same arginst and the same iteration is an absorbed on the same barries of the same iteration is a same and and the rest into a same iteration is a same iteration in the same barries of the same iteration in the same barries of the same iteration is and the same iteration is and the same iteration is a same iteration in the same barries of the same iteration is and the same iteration is a same iteration in the same barries of the same iteration is a same iteration in the same barries of the same iteration is a same iteration in the same barries of the same iteration is a same iteration in the same barries of the same at the same iteration is a same iteration in the same barries of the same at the same iteration is a same iteration in the same barries of the same at the same iteration is a same iteration in the same barries of the same at the same iteration is a same iteration in the same barries of the same at the same iteration is a same	delivery here they are the instal over S of the premiers above granted, shares
And the said paring G <sub>2</sub> of the first part dohreeky overant and arere that it be a where of a case and indefeatible units of information therein, free and case of all incurs ind that they will warrant and defend the same arginnt all parines making lateful dains the It is arreed argin tail real state where the same arginnt all parines making lateful dains the It is arreed argin tail real state where the same arginnt all parines making lateful dains the It is arreed argin tail real state where the same arginnt all parines making in the It. The state of 152. Interest. And in the rear the state part 162 of the first part shall at all state of 152. Interest. And in the rear the state part 162 for the state and the It. The lateful lateful late is the real of 152. For the state and a parsent shall the real part lateful late is the real of 152. For the state and a parameter shall THE GRAPP. It is increased are an error of the second part is part of the sum ad- The lateful lateful late 152. The lateful latef	deferrer presed. "they are
And the sold paring Get the first part is okredy overage and arere that at the main setted of a grant and indefaulties tests of informate therein, for an additional that they will warrant and defend the same arginat all parties making lacful dains there. It is as aread arginated and real states herein that as a provided the same arginated argination of the same arginate and the same arginate the same arginate daily of the first part had at a same arginate and real states arginate and the same arginate and the same arginate daily and the same arginate arginate arginate the same arginate daily arginate arginate the same arginate daily arginate arginate the same arginate daily arginate arginate daily arginate	deferrer press
And be refs particle of the first part is onhereby overeast and arere that it be as letted of a good in footdealing weater of a first part is one-hereby overeast and arere that it be and letter of a first part is a first part part is a first part part part of the second part part part part part part part part	delivery here they are the is full over So it he premiers above greated, shares
and bot the vert will we remain hand of each be note a series of the first part of the level of the first part of the series	deferry here i. that y_are in the instal over . S of the premiers along remain, shares
And the and paring G <sub>2</sub> of the first part is ohereby overand and arere that at the main eletted of a second index of all houses that of a local model while the same area in a second part of the same area in s	deferry here they are the instal over So it he premiers above granted, abrance
And the and paring G_of the first part is or hereby overant and arere that it the main eletted of a second index of all intervals and defend the same areained which first part had a site of a linear second second part of the same area of a second part of the same area of the	deferry here they are the is fully over So it is preading above granted, shares
And the said part[65, cf the first part do =hreby overant and arere that it the do wind of a cost call indextending tests of internate therein, free and its of all its of the first part had at a same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the ratio of the same arguing the same arguing the ratio of the same arguing the same arg	deferry here they are the is fully over So it is preading above granted, shares
And the said part of a fibe first part of a have y overant and arere that it be a brief of a new said hadrenulie makes of hardname berrin, fire said care of all hours and bear and hadrenulies the same barries of a said result of a said said said said said said said sa	deferms press
And the said part[ of a disk first part of hardy overant and arere that it the disk disk of a disk disk and it disk disk disk disk disk disk disk disk	address press
